

## **R Systems International Limited Earns Great Place to Work® Certification for 2025-2026**

**Date:** 27 March 2025

**Location:** Noida, India

R Systems International Limited (a Blackstone portfolio company), a global leader in digital product engineering, is proud to announce its recognition as a Great Place To Work® again. This prestigious recognition spans across India, USA, Canada, Poland, Romania, Moldova, reinforcing R Systems' position as a preferred employer.

This achievement highlights our commitment to creating an inclusive and empowering work environment across its global operations. At R Systems, we prioritize transparency, respect, and continuous growth to ensure employees feel valued and inspired to excel.

Satyadeep Mishra, CHRO of R Systems International Limited, shared, "Being certified as a Great Place to Work® again across multiple geographies highlights our unwavering focus on building a culture of excellence. At R Systems, we believe that an engaged and motivated workforce is the key to our success. This recognition validates our efforts to nurture an environment where individuals can thrive, contribute meaningfully, and drive innovation."

Great Place To Work® is a globally recognized authority on workplace culture, assessing organizations through rigorous employee feedback and analysis. R Systems' achievement reflects its dedication to creating a high-performance, people-centric work environment that fosters professional growth and well-being.

### **About Great Place to Work:**

Great Place To Work is the global authority on workplace culture. Their proprietary methodology and platform enable organizations to capture, analyze, and understand the experience of employees. Since 1992, their Certification, Best Workplaces™ Lists, and global benchmarks are built on data from more than 100 million employees in 150 countries worldwide.

### **About R Systems**

R Systems is a leading digital product engineering company that designs and develops chip-to-cloud software products, platforms, and digital experiences that empower its clients to achieve higher revenues and operational efficiency. Our product mindset and engineering capabilities in Cloud, Data, AI, and CX enable us to serve key players in the high-tech industry, including ISVs, SaaS, and Internet companies, as well as product companies in telecom, media, finance, manufacturing, health and public services verticals.
